ADVANTAGES:

"Purified" enzymes act instantly consuming organic soils on contact unlike "bacteria" based products that can take hours to act.

Safe on food contact surfaces and any washable surface!

Enzymes naturally digest sugars, fatty acids, proteins and other odor causing organic matter which will reduce obnoxious pests!

Remediates and breaks down fecal matter and urea increasing lagoon capacity and lowers ammonia odors.

Readily biodegradable!

DILUTION RATIO'S:

Remove the animal and any food from the area to be cleaned. Add 6-12 ounces of Pig Out per gallon of warm water (100°F) then spray liberally over the area to be cleaned and allow dwelling for 5-10 minutes, then brush if necessary and remove with hot high pressure water for best results. Repeat as necessary. *Do not use this product with bleach or ammonia. It is best you do not use this product in conjunction with another product at time of cleaning to ensure good enzyme activity. Drain Maintenance: Use 8-16 oz per 4-5 gallons of water. Waste Remediation: Inject 1-2 oz to every 500 gallons of waste daily
*Remove any unpackaged food or beverages before using this product in that area to be cleaned!
